

Emblema, for Faema Lovers

Faema launches Emblema website

Faema announces the launch of a new web site devoted to the Emblema espresso coffee machine.

emblema.faema.com is designed to give broad visibility to a highly-innovative machine.

The structure of the site is simple and immediate to provide ease of use, without sacrificing the feeling that can only come from a product that is both aesthetically pleasing and technically advanced.

The site will be continually expanded and updated thanks to outside contributors, creating a community around the product and the Faema brand.

Follow the link to emblema.faema.com and feast your eyes on a special product, born of the experience of Faema and Giugiaro Design. Then follow your heart to join the exclusive club of Faema Lovers.
